Spring & Summer Puck Control

Our Innovative Puck Control Program:

- Tucker Hockey's Philosophy focuses on 4 key teaching components - Control, Confidence, Creativity and Speed for enhanced puck control development.
- Our 5 step skill progression includes: Stationary Puck Control, Moving Puck Control, Use of Teaching Aids (Pylons, Attack Triangles and Puck Dangers), Puck Protection / Keep Away and Handling the Puck Under Pressure / Game Situations.
- Puck Control starts with the proper hockey stance and stick (length, weight, lie and blade pattern)

Testimonials

Excellent Puck Control Clinic! Would highly recommend and my 9 yr old son Luke had fun and was eager to go each day. Very Professional and experienced coaches who took their time with each kid. Much appreciated!! We will definitely do a Tucker Hockey clinic again!

~ Renee and James Vink, Parents to Luke

I was very impressed with this camp - the coaching and drills were excellent. The camp - which focuses on stick handling, puck possession, body position, and dekes - is exactly what my Peewee player needed to expand his game. Am I going to sign up my other son for this camp - Yes! Would I recommend this camp to other parents/players - Absolutely!

~ Robert Elliot, Father to Andrew

Exceptional Hockey Value!
