Testimonial

"Rex Tucker was on the ice running each session. From start to end, he holds each kid's attention. The instructor/participant ratio was small so my son was able to get one on one attention when needed with a drill.

All the drills were geared around the areas that the group needed to work on. I was impressed with how much my son improved.... especially his backskating & puck control!

After participating in this camp, I noticed a HUGE improvement in my son's skating and his game. His confidence has grown and as a result, he has become a better player.

I will definitely choose Tucker Hockey for our next program!"
